Monday in the pit

amount of business was transacted, and this was principally confined to the low-prifeed stocks. Ajax was the only active security in the listed stocks and transfers were recorded at a decline below former quotations. Buillon-Beck, Daly and Daly West were ignoved. Geyser was very weak in the bidding, while there was earnest inquiry for Galena, which was strong at 36 cents. Mercur chronicled a bid of 55.66, but this was only a feeler, as buyers were willing to pay more than this for the stock which was firmly held at \$8.10. No change was noticeable in Mammoth, which was strong at the quotations of the previous call. The bears renewed their attack or Geyser-Marion, which remained unchanged in the asking. Northern Light was in good demand and closed firm at 30 cents in the bidding. Utah maintained the closing figures of Seturday last.

The unlisted stocks were slighted and but few of them were called un even for the ourpess of establishing a quotation. South Swansea was was kin the bidding. Buckeye of Thuic, which has lost ground during the past week, failed to make it up. This stock was lower than ever in the efferings, but a decline was noted in the bidding. mine and mill, he is emphatic in his statement that "it is all right," and those who visited the property of the company last Sunday were surprised as well as pleased at the excellent showing made.

As time progresses it is anticipated that the reports from the Northern Light will be more and more favorable.

AFFAIRS AT THE CREOLE.

Eleven Feet of Pay Ore Disclosed in the Workings of the Mine.

J. J. Thomas and W. Aubrev For escue, of the Creole mine, at Park tescue, of the Creole mine, at Park City, who made a visit to this prop-erty the first of the week, returned to Salt Lake more than pleased with the manner in which the mine is coming to the front, and especially so as the body of pay ore has videned out to II feet in width, and the chure of mineral is growing in size as work progresses on

the voin, and at the same time values are being maintained.

A new steam hoist for the Creole is now at the Park, but had roads have interfered with its transportation to the mine, but the plant will soon be in T WAS a blue place

The company has about 100 tons of Monday in the pit of the mining exchange yesterday and but a limited amount of business was transpaged and the property and t

Mercur, May 10.—Richard Kemp and William Flowers were at work in the main shaft of the Golden Gate yesterday and had fired II charges. Ten went all right, but one missed fire and was buried in the devirs. In clearing out the ore, the men, who were not aware that a shot had missed, reached the powder with a pick and an explosion followed. Both men were stooping over the pile and their faces were filled with rocks. Kemp will probably recover, but Flowers will lose the sight of one eye, and possibly both. Flowers left arm was severely injured, and his left thumb torn nearly off. It was thought at first that amoutation would be necessary, but later the doctors decided to try and save it.

At the Dayton, or, as it is better known, the "Cheesman shaft," on the West Dip, an acident happened yesterday which fortunately did not result fatally. A nephew of the contractor, Mr. Freeze, was hoisting rock, when the brake on the whim tangened yesterday which fortunately did not result fatally. A nephew of the contractor, Mr. Freeze, was hoisting rock, when the brake on the whim gave way and the bucket with its contents was precipitated to the bottom of the shaft. The whim tender was thrown against the side of the shaft house and badly bruised, but no other damage was done.

the company will be in such shape by June next that a dividend will be declared for that month.

MARKET SHOWED

SIGNS OF STRENGTH

Uncertainty Concerning Gold Exports Curtails Speculation.

MORE SHIPMENTS ARE LOOKED FOR

GRANGERS BOOMED BY FAVOR-ABLE CROP REPORTS.

Gold Situation Continues to Mystify the Traders-Wheat Scored an Advance, but Subsequently Re-acted-Mining Stocks and Live Stock Markets.

New York, May 10.-The market for stocks today showed signs of decided strength throughout, though the dealvanced very cautiously, in spite of imdon. This was supplemented by some small buying for London account in this market later in the day. The excellent crop reports from the northwest and the improved earnings, both those reported and those rumored for the immediate future, gave an impetus to the buying of ralitoal properties in that region. The grangers and Northern Pacific received the most noticable benefit from this. The exchange situation and the resulting or accompanying gold movement continue to mystify dealers in stocks, and are an element in curtailing speculation. Further shipments of gold are confidently predicted this week, with demand sterling exchange ranging from 4.872494.872. As an evidence that the gold shipments are certainly the result of obliteration of the tremendous trade balance in our favor, heretofore established during the fiscal year, the large figure of last week's imports at New York, exceeding \$18.000,000, are pointed to as conclusive by those who seek to deprecate the idea that any special demand for gold abroad is responsible for the outgo.

But exports of gold at prevailing rates of exchange leave unexplained the fact that on the Saturday previous to the first gold shipment demand sterlcellent crop reports from the northwest

Washington, May 10 .- Today's statement of the condition of the treasury shows: Available cash balance, \$230,-85,578; gold reserve, \$147,408,727.

Post's London financial cablegram

Post's London financial cablegram says: The feature in the stock market here today was the sharp bear actamble in Kaffirs, which have been rushed up 20 and 25 per cent. The settlement disclosed a large bear position. This partly accounts for the rise, but the reports circulated as to the German policy in Africa at the moment being actively favorable to this country, have, there is excellent reason to believe, every foundation in fact.

Now that the bear position in Kaffirs has been largely reduced, however, it looks as though the rise were too fast to last; still, i must report a considerable public interest and it now remains to be seen whether the public are going to buy again or whether they have large holdings to unload.

The other markets were all buoyant on the political news, Consols were only 5 below the highest point ever touched. Foreigners were generally good but the flatness in Spanish securities was a prominent exception. Austria is the only hover of gold for the

tiles was a prominent exception. Austria is the only buyer of gold for the moment.

The Paris bourse was strong on the buying of Kaffirs, and the Berlin market was firm.

Coffee and Sugar.

New York, May 10.-Options dull, 5 @10 points advance; closed inactive, 5 @10 points net, advance; sales 3,000 bags, including May, 7.50; September,

VIOLATED THE TREATY.

Japan Will Investigate the Conduct of Hawaii.

San Francisco, May 10.—The steamer China today brought the following Hawaiian advices: Honolulu, May 4.—The Japanese

Chioa today brought the following Hawaiian advices:
Honolulu. May 4.—The Japanese cruister Naniwa should soon arrive here, having left Yokosuka on April 29, four days before the steamer China salied. She brings Commulia Akiyama of the Japanese foreign office, two Japanese newspaper correspondents, and three of the immigrants lately refused a landing here, who come now to serve as witnesses in the investigation which is to be held.

The Naniwa also bring formal instructions to Minister Shimamura from his government, their gist being that he shall charge Hawaii with having violated the existing treaty in February in refusing a landing to the Japanese immigrants, preventing them from employing counsel and declining to entertain the proposition for a suit at law to determine the rights of the case. By the Japan "Mail" news comes that "The emigration company of Kobe claims 20.50 ven for each of the III immigrants turned back, while the steamship Shinshu Maru claims 20 yen per day damages for time lost through the Hawaiian government's action. It is also stated that Count Okuma, Japanese minister of foreign affairs, will insist on a revision of the existing immigration regulations.

Colonel Z. C. Soaulding has withdrawn from his contract made with the Hawaiian government' for the construction of a cable from California to the Hawaiian islands, having failed to secure the expected assistance from the United States.

PLEA FOR DURRANT.

PLEA FOR DURRANT.

The Murderer's Attorneys Will Appear Before the Governor.

San Francisco, May 10.—Attorneys Eugene Deuprey and George A. Knight have begun the preparation of the plea for executive elemency on behalf of Theodowe Durrant, which plea will be presented to Governor Budd next Friday. The procedure will be strictly in accordance with law. There will be no enotional or sensational appeals. The attorneys say they will be content to depend upon facts and the force of arguments to save their client.

It is not the intention of Mr. and Mrs. Durrant to accompany the attorneys to Sacramento, as it is understood that the governor would not see them should they present themselves. Durrant is sanguine that the governor will act favorably on his application. for executive elemency on behalf of

MYSTERIOUS SUICIDE Body of a Beautiful Young Woman

Found in New York. New York, May 10-"Never mind who am, or why this was done. It will hardly ever be found out. I hope "TITIANA

hardly ever be found out. I hope not. "TITIANA."

This note, written on a telegraph blank, was found on the body of a woman taken from the nark reservoir off Ninety-sixth street today. It was undoubtedly a suicide. The woman took every precaution to conceal her identity. She was about 30 years old, 5 feet 6 inches tall, of fine proportious, and a face of striking beauty, set off by magnificent black hair. The under-clothing was stamped "Schlessinger & Mayer. Chicago."

Besides the note given above there was in the pocket a letter addressed to the coroner, asking that her body be tremated. Fifty dollars, she said, would be found in her left shee. The money was not found in the shoe, but there was a postscript to the letter, which said: "I trust all will be done right; I'm sorry I cannot delay this matter. The money was not received. It will be sent to the coroner."

A torn paper was not received, with direction that her ashes be turned over

A torn paper was enclosed, with di-rection that her ashes be turned over to the person who should send the other

SAN JOSE CENTENNIAL.

Bishop Scanlan Has Been Invited to Attend.

San Francisco, May 10.—Archbishop Riordan has accepted the invitation of the citizens of Mission San Jose_to officiate at the celebration of the centen-nial anniversary of the founding of that mission on June 13. Father Mc-Naboe, the pastor, and his assistant, Father Montaner, are arranging to build an altar in the open air, at which the pontifical high mass will be cele-brated.

brated. Invitations have also been addressed to Bishops Montgomery of Los Angeles, Grace of Sacramento and Scanlan of Sait Lake, all of whom have expressed their intention of being present and assisting in the ceremonies. These eishops and a large number of the clergy will assist the archibshop in the cerebration of the mass.

A Theosophical Sanitarium.

San Diego, Cal., May 10.-The Theo ophical society tract of land on Point Loma was increased today by the ad-Lona was increased today by the ad-ditional purchase of 40 acres of im-proved land adjoining the tract pre-viously purchased for a large sum, now giving the society one mile square of land. The object of the increase in holdings is to erect a large hotel and sanitarium on the grounds, which have the finest view in this section. The plan involves the expenditure of \$400,-000.

Public Notice. All persons who came into the wa of the Great Sait Lake in the year 1847

are entitled to be recognized as PIONEERS.

Those who have not already done so will please report before June 1 in writing or in person, giving full name and address. By order of the Semi-Centery mal complexion.

The clean-up from which this ship-ment is the result was made on the 5th of the month at which time the mill was started on its regular run.

The amount of the clean-up from the experimental run was just about \$5 pounds. Thirty-five pounds of this product was taken from the orccinita-tion troughs at an early stage and were not as rich as the 4s pounds that were taken out at the completion of the experimental tests.

This inst 10t, according to assays

C. M. Meintire of Mercur, who was in the city yesterday, informs The Heraid that he has great faith in the future of Camp Floyd district, and that he is of the opinion that it will develop into the greatest gold camp in the world. Mr. Mcintire has hung to Mercur through thick and thin, and as he has seen it grow from a little hamlet to one of the most substantial towns in the west, he should know what he is talking about when he makes a prediction regarding its future.

The officers and stockholders of the C. M. Meintire of Mercur, who was

The Blue Mountains.

A great deal of interest is being taken at the present time in the Blue Mountains at the present time in the Blue Mountain mining district, in San Juan county, this state, and this is destined to develop into a great gold camp.

The Star of Dolores, Colo, in an article on the merits of this district, says:

The Blue Mountain Tunnel company, recently organized in Sait Lake for the time of driving a tunnel and sinking the surprise of the serving the sample of clanabar ore in sight in the mine to justify the erection of a mill, and that the probabilities are that one will be erected by the company this season.

Hyrum Beck, who is working the

Hyrum Beck, who is working the Northern Suy mine on a lease, was in from Eureka yesterday. Mr. Beck Northern Suy mine on a lease, was in from Eureka yesterday. Mr. Beck states that the mine is looking well, with fair bodies of orc in sight, and that at the present time he is working a force of II men and taking out about 15 tons of milling and shipping or daily. The second-class mineral will be put through the Sicux mill, at Robinson, while it is the intention of Mr. Beck to make a consignment of the first-class as soon as he can get a team, as from this on he will haul his own ore from the mine to the railroad and to the mill.

Rich County Round-Up: A reg-

the mill.

Rich County Round-Up: A regular exodus is being made to the Red-Eyed basin. Assays showing \$55 copper, \$25 silver and some gold have been made on samples from the big vein which has been traced for eight miles. J. R. South, L. O. Pead, C. E. Anderson, Samuel Brough and another own five adjoining claims, from which samples for assay had been sent with the foregoing result, and they say that the samples were not picked. A number of people from Randolph, Woodruff, Almy, Evanston and other places are filing on claims and doing development work. The property is over the line, in Ulnta county, Wyo.

A dispatch from Carson City, Nev.,

work. The property is over the line, in Uinta county, Wyo.

A dispatch from Carson City, Nev., says: This week a rich strike was uncovered in the Buckeye mines in the Pine Nut group. The news reached town today. It means money for the owners and the whole community. The courier says the channel has been found. If this is correct, it means the opening of an immense mining region, in which such men as Lane and Muchay and others are interested. The discovery of the channel means the uncovering of unfold wealth. The strike was tested and found to be very rich and some large nuggets were taken out. The worth of the strike has not been ascertained as yet, but already 100 feet of auriferous rock has been exposed and neither edge has been reached. Hermann Zadig, a mining man of San Francisco, and W. R. Hofer leave for the scene tomorrow. They will return Sunday.

From all accounts the Sacramento wince at Mercury was the sacramento

leave for the scene tomorrow. They will return Sunday.

From all accounts the Sacramento mine, at Mercur, must be a wonder, as there is seemingly no limit to the ore deposits of this property. In several places in this mine there are breasts of ore exposed that are from 50 to 109 feet thick, and The Herald is informed that in the upper workings, in what is called the Mercur vein, the company is now looking for another footwall, as it has been found that the block lime, which was always considered as the footwall of the ore body, carries gold values ranging from \$4\$ to \$2\$ to the ton, and it is hard to tell the depth to which this deposit extends before the true footwall is reached. In the lower workings, in what is called the porphyry vein, next to the silver vein, the ore assays from \$7\$ to \$2\$ in gold. The Sacramento is a magnificent plece of property, and like the Mercur, it is springing surprises on the company from time to time, and the management really is in ignorance as to the magnitude of the ore deposits, although the workings have already exposed many thousands of good milling

posed many thousands of good milling ore that can be worked at a good profit. Stock Broker. E. E. Crooks, 15 West First South treet. Telephone No. 6.
